100%
COMMITMENT TO
QUALITY

WHO WE ARE

From alloys and ingots to recyclable scrap, Alumeta Industries supports India's manufacturing and recycling sectors with dependable supply, superior quality, and lasting partnerships. We specialize in manufacturing aluminium alloys, aluminium ingots, copper alloy, copper ingots, and premium metal scrap, sourced and delivered through a strong nationwide network. Driven by industry expertise, strict quality standards, and a commitment to integrity, we help our partners achieve efficiency, consistency, and long-term growth.

OUR VISION

To be recognized as a global leader in scrap metal Recycling, consistently exceeding expectations through quality, reliability, and innovation.

OUR MISSION

- Deliver superior quality metals at competitive prices
- Build lasting relationships based on trust and transparency
- Serve diverse industries with tailored solutions that add value to their operations.

OUR VALUES

- **Integrity & Transparency:** Honest dealing and accurate weighing processes
- **Customer Focus:** Prompt service and fair metal scrap pricing
- **Sustainability:** Promoting recycling and responsible metal reuse
- **Global Reach:** Strong trade networks across multiple continents.

WHAT WE DO?

We are actively involved in the import, Manufacture, and supply of metal scrap and raw materials, with a focus on aluminum, copper and other non-ferrous metals.

- Manufacturer of aluminium ingots & alloys | Supplier of all types of aluminium scrap
- Manufacturer of copper ingots & alloys | Supplier of all types of copper scrap

WHY CHOOSE US

- Fair & Competitive Pricing
- Customer-Centric Support
- Global Network & Distribution
- Efficient Recycling & Sustainability Practices

Copper Sheet Scrap

Copper Pipe Scrap

WE MANUFACTURE & SUPPLY

Aluminium Ingot, Alloy Manufacturer & Supplier

Aluminium Ingot

Aluminium Alloy

Copper ingots

Copper Alloy

Aluminium & Copper Scrap Importer and Supplier

Aluminium & Copper Scrap

OUR QUALITY-DRIVEN PROCEDURE

1. Scrap Cleaning & Sorting

Alumeta Industries transforms imported scrap into high-quality aluminium and copper ingots & alloys through a controlled process that ensures purity and consistency.

2. Controlled Melting

Imported aluminium and copper scrap is cleaned, sorted by type and grade, and cleared of contaminants to ensure efficient melting and consistent quality.

3. Alloy & Ingot Production

- Aluminium Alloys:** Strength and durability
- Aluminium Ingots:** High-purity casting
- Copper Alloys:** Enhanced conductivity
- Copper Ingots:** Electrical-grade quality

4. Alloy Composition Testing

To guarantee the exact chemical composition of every batch, we use advanced spectrometer analysis. This ensures each ingot and alloy meets specification and performance expectations before dispatch.

SUSTAINABILITY AT ALUMETA INDUSTRIES

Responsible Recycling

Energy Efficiency
